RE: DISPOSITION OF BELT PLATES AND FILM ON HAND

Attached is a list of title(s) printed via our Cameron Belt Press which have reached our three year of 200,000 impression limit for maintenance of text plates.

Free storage of plates is offered for three years from the date of the last printing. After the free storage period, a charge of $4,00 per month, per title will be assessed (billed in advance semi-annually). The storage charge will start on January 1 or July 1 following the three year anniversary date from the last printing.

If you feel these titles will not reprint or will have major editorial changes, you may elect to have us destroy the plates and return the film to you, thus saving the cost of storage.
